

## Diagram for Students to Prepare for Dilemma Discussion

### Instructions for Teachers:

Below is a diagram that helps students follow along with the class discussion and reflect on the learning process.

Students can be instructed to fill in the diagram while following the discussion.

You can also allow students to work in groups and prepare talking points to share in a larger class discussion.

The diagram can also be used to evaluate student performance.

## Diagram for Preparation for Class Discussion

Fill in the diagram below based on the headings and questions that appear:

### Presentation of the Situation

An unbiased presentation of the situation

### The practical Question

Who is the story about? What is the practical question that he or she is facing?

### Presentation of the Dilemma

Which values arise from the dilemma that the characters need to consider?

What are the **pros and cons** of each choice that he or she could make?

Something that became clear about the situation/case through the choice of the characters
